

Dear FCC:

Please do not allow consolidation of media ownership. This is dangerous to democracy, media innovation, and the dissemination of new, fresh ideas. I have lived in several US cities recently, and the most vital, interesting than markets that have an exciting mixture of local, medium-sized and large scale media conglomerates such as clear channel, (with the latter often being the least vital.) Diversity must be encouraged. The alternative is stifling. Please vote against major revisions that would stifle competition and vitality.

best regards,

Charlotte
